S

## DESCRIPTION OF PROPOSED WORKS

2 wells - 6" x 300'

To be intertied with existing distribution system.

## DEVELOPMENT SCHEDULE

BEGIN PROJECT BY THIS DATE:

Started

COMPLETE PROJECT BY THIS DATE:

June 1, 1984

WATER PUT TO FULL USE BY THIS DATE:

June 1, 1985

2005

## PROVISIONS

"Total annual withdrawal under all rights shall not exceed 210 acre-feet per year for community domestic supply."

Installation and maintenance of an access port as described in Ground Water Bulletin No. 1 is required. An air line and gauge may be installed in addition to the access port.

Permittee is advised that notice of proof of appropriation of water (under which final certificates of water right issues) should not be filed until the permanent diversion facilities have been installed together with a mainline system capable of delivering the recommended quantity of water to an existing or proposed distribution system within the area to be served.

A well log of the completed well shall be submitted by the driller to the Department of Ecology within thirty (30) days of completion of this well. This well log shall be complete and all information concerning the static water level in the completed well, in addition to any pump test data, shall be submitted as it is obtained.

This permit shall be subject to cancellation should the permittee fail to comply with the above development schedule and/or fail to give notice to the Department of Ecology on forms provided by that Department documenting such compliance.

Given under my hand and the seal of this office at

Olympia

Washington, this 10<sup>th</sup> day

of October

19 80
